

BOOK NOTICE

BATTLE OF THE BEETLES, in "High Jungle," Chap. 20, pp. 300-318, 6 ill., by William Beebe, 1949, Duell, Sloan & Pearce, N.Y., \$4.50.

Dr. Beebe has exposed the intimate life of *Dynastes hercules* and *Megasoma elephas* to the general public in this fascinating chapter. This chapter must certainly be added to the references to these species in our catalogues and papers.
